Employment History: As appointed Director of the Ohio Department of Mental Retardation and Developmental Disabilities, I am delighted to see an outstanding opportunity to make great strides in providing needed services to the more than 74,000 individuals and families served by the statewide system. Terry served as a superintendent for over 36 years; 4½ years in Crawford County, then 32 years in Putnam County. Some of Terry’s accomplishments include starting: 2 ICFMR facilities in Putnam County; community employment; a supportive living program; and, the early childhood and family center.

His wife Janet, who served as his secretary for the past 25 years, said, “He was devoted and dedicated to his position and to the disabled citizens of the county.” His co-worker, Allen County Superintendent Esther Baldridge, considered Terry a mentor and stated that, “He cared deeply about the people he served and did his very best to make sure they had the support they needed to live a good life within their community.” Terry will be missed by all who knew him.

One tool, the web-based referral application is for use by ISP teams and providers. The second tool, the provider search application is for use by the ISP team and the public. What is often considered to be a cumbersome and confusing process is managed efficiently through these two applications.
